“ It was certainly my honor to have worked with Jim in the Terminal Platform at FAA. Jim was a wonderful man with a keen sense of humor, and was loved and respected by all who had the pleasure to know him. Jim was a rare person, that when you spoke with him, he was a great listener; a truly caring and kind individual. Hearing of his passing was devastating news to me. The week before Thanksgiving, Jim had come over to the Regional Office, and I saw him crossing the parking lot. This was my gift from God, to have had a quick chance to speak to him; as we no longer worked in the same building. Previously, it had been a year or so, since I last saw Jim. Know that Jim was deeply respected, a very intelligent, gifted man, and strong contributor in the FAA workforce and community. He will be deeply missed. May the Lord grant you all peace and comfort at this very difficult time; my thoughts and prayers are with your family.

“ It was my joy and honor to have known Jim and worked with him over the past 29+ years at the FAA. He was so much fun to have around. And when I say that, I mean he would tell me the circle around him was his space and I would just laugh and step closer. We picked at each other and I really enjoyed being around him. I would always tell him I was going to buy him a butt. LOL .He will truly be missed in my heart and I know in the hearts of our FAA family....Love and Prayers, Rose Campbell
