“ Lea, your smile was contagious! Your love for life and others was like no other! The joy that you brought into this world could never be matched. I will forever cherish every moment we had, whether it was a hug, a text, a phone call or a snap. The world will never ever be the same without you here. But the peace of knowing you'll be living on in others will get us through. The joy of knowing that you're walking those golden streets of heaven with our other loved one's that have gone before us will get us through tomorrow. I will never forget the times we had, from watching you hold the boys in the hospital when they were born to the times you did pull ups on my arms. I love you Lea more than life itself, and look forward to seeing your sweet smile and beautiful face when I pass through those pearly gates when our father says it's my time. Until then, keep watch over us all. We love you so much, until next time. Later sis!

“ Lea, there are no words to express how loved you were. You were a positive powerful force of nature. God shine through you in all of your words and actions. I am thankful that I was your teacher in 8th grade, and that we formed a friendship after I was no longer your teacher. You had a strength and bravery that not many possess. Thank you for being such a blessing to me and allowing me to be a part of your life. I will miss our coffee talks, and your infectious smile and laugh. My heart aches for your family and all of us that loved you. There is comfort in knowing that I will see you again when it is time. You are already missed. Grateful that you are an Angel looking over us all.

Much love
