“ While working with Jack at Athens Tech, I got to know Marie and loved her immediately. She had a knack for making everyone feel like family. When I moved to Northwest Woods in Athens in 2006, I was delighted to find out that they were my neighbors, only about a block away. Marie was always quick to volunteer Jack to help me with any problem I had about the house, and they were a wonderful source of advice any time I needed them. I had an instant Athens family then--Marie and Jack were so supportive, and Judith was my adopted sister. When they moved to LaGrange, I missed them terribly and still do. A bright spot is missing from my life, and I grieve with Jack, Judith, Chuck and family. My prayer is that happy memories will comfort us all.

“ It was our pleasure to know Jack & Marie when I worked at Athens Tech from 1974 - 1985. In those days faculty was small in number so spouses and children were part of the AT Family. We had dinners together, attended conventions and were just good friends, as well as, co-workers. Marie had the sweetest smile and was always happy to help anyone who needed it. Since Jack & I both were in the Trade & Industrial Education field, we saw each other often until I left AT around 1985. After that, we only saw each other occasionally but we did see them shortly before they moved to LaGrange. Marie was a wonderful wife, mother, a great cook and she was supportive of Jack as the tech schools grew and it demanded so much time in going back to school, upgrading programs, developing curriculum above the ordinary teaching time. Along with looking after her family, she helped to look after neighbors and seniors on her street. . . she was one of a kind.

Kenneth and I send our love and sympathy to Jack, Judith, Chuck & Family. We pray for God to wrap his arms around you and give you peace and comfort until you once again meet Marie on those streets of gold. Marie Newman, fly high sweet Angel, you certainly earned those wings here on earth. And, we'll all meet you again in the sweet bye and bye.
